

Lasers, Optics and Photonics Awards

Claudio Verzegnassi

Researcher, Department of Polytechnic of Engineering and Architecture, University of Udine, Italy, E-mail: claudioverzegnassi41@gmail.com

Poster award:

Conference will encourage **Young Researcher's Forum**, scientists and the researchers in their early stage of career path to widely discuss their outcome to enhance and develop the idea. The 'Best Poster Award' is meant to encourage students in taking active part in the International Science platform to sharpen their skills and knowledgebase. Euro-Optics 2020 objective to bring all the Optics Professionals under at one roof at Amsterdam, Netherlands Euro-Optics 2020 to interact and share their knowledge and their newest research to the entire Optics & Lasers.

Expert level:

The eligibility standards for accomplishing this award is that one must have minimum of 15+ years of experience in the relative field of [Lasers, Optics and Photonics](#). This award will be contributed to the most outstanding presentation on the entire conference. It is the most prestigious honour of the whole conference as like scientific service Achievement award. The nominations are going through online.

Professional Level:

This award will be contributed to the one who have acquired academic research activity and showing their attention in the conference programs in all over the world. The one who have the 10+ years of experience in the field of lasers, Optics and photonics this award will be accomplished. Part-time research experience is also counted for the nominations. This will start from your career path in the research field that will be counted from the PhD and post doctorate and either in the country in which the degree was obtained or in the country in which the researcher is recruited.

Scholar level:

This award will be contributed to the one who have 10+ years expertise in the field of lasers, Optic and photonics and excellent teaching in the classroom and the laboratory experience and also who have published articles and books related to field and participation in grant funded projects promoting innovative teaching methods. Our conference will provide you best platform for your research to expand your network. You can nominate deserving of the award through online.

Women scientist:

Women in Science Award highlight major contributions by female scientists to lasers, Optics and photonics. Winners of the award are inspiring role models for future generations of women in science. We are happy to encourage our women scientist's participants through research awards and provide support for women scholars in career development and research guidance. Women Scientist can nominate deserving of the award through online.

Outstanding speaker:

This award will be contributed to outstanding speech and who will present their projects, progress of the work that suits to conference theme that have been implemented to improve the future modelling. You can nominate worthy of the award through online.

Keynote speaker:

This award is recognizes for best Keynote speaker who will present their projects, strategies, progress of the work that suits to conference theme that have been implemented to improve the future modelling. Nominations are invited for individuals who you believe are innovators, passionate, influencers who are delivering real and positive change. We would welcome nominations from across the sector through online.

Outstanding Thesis:

This award recognizes for doctoral/Post-doctoral thesis research of outstanding quality and achievement in any area of Lasers, Optics and photonics. The research theme and presentations will be taken into account for accomplishing this award. You can nominate worthy of the award through online.
